- 2) Partnerships to **be equally valued, based on trust, mutual respect and meaning**.
- 3) Collective efforts to promote and accelerate inclusive and equitable growth should be based on **advancing democratization, social inclusion** and **economic growth indicators**.
- 4) Multi-stakeholder **commitments, efforts** and **accountability** to the mobilization of adequate **resources** are needed to contribute to the successful implementation of the post-2015 development agenda.
- 5) The private sector must operate within the context of national and international commitments of the **decent work agenda**.
- 6) All actors strive for an equitable partnership involving **joint decision-making, joint planning, joint implementation and joint monitoring**.
